To complete their dinner unit, the High School Home Ec. girls served a delightful three-course dinner. Guests included Mrs. Poor, Mrs. Bond, Mrs. Cornell, Mrs. M. LaMotte, and Mrs. H. Stephan.

Dr. Maddy, who with T. P. Giddings, founded the National High School Music camp at Interlochen, near Traverse City, gives lessons in all instruments and voice over the National Broadcasting Company.

In the demonstration Dr. Maddy called upon four students to take a lesson on the trumpet, clarinet, and baritone. The radio method of teaching was used and proved very interesting.

The Music Dept. of Grayling High School is using Dr. Maddy's and Mr. Giddings' music books.

**Jokes**  
Ed Chalker—This paper tells about an English woman who lost two thousand pounds.

Ervin Cody—Sakes alive! I didn't know a woman could be so fat.

Miss Peeke asked her class to write four line verses that showed action. John Henry Peterson wrote:

A boy walked down a railroad track,  
A train was coming fast;  
The boy jumped off the railroad track  
To let the train go past.

Miss Peeke did not think the verse showed enough action, so John revised it as follows:

A boy walked down a railroad track,  
A train was coming fast;  
The train jumped off the railroad track  
To let the boy go past.

Howard Smock—You complained about having spots before your eyes, so the doctor told you to get a pair of glasses. Did they help you any?

Jack McClain—Sure; now I can see the spots much better.

Mr. Bond asked us to publish this: "If the gentleman who took my physics notes from my coat will return them before exams, no question will go unanswered."

Bill Joseph—I wonder why a dog hangs his tongue out so far?

Leonard Knibbs—To balance, his tail, you simp.

Leo Lovely: "Say, you can't take that girl home! She's the reason I came to this party."

Lars Rasmussen: "Well, you've lost your reason."

Clyde Borchers at the A. & P. (to elderly lady)—"What can I do for you, madam?"

Lady—"I'd like to try some of that track meat I've heard so much about this spring."

Mr. Poor and Mr. Cornell were walking down the street. They met many students, and each time Mr. Poor would say hello, he would mutter: "The same to you."

Mr. Cornell's curiosity soon got the better of him, and he asked: "Why do you always say that?"

Mr. Poor answered: "I was once a student, and I know what they are thinking."

Bob Hanson—"My mother told me to take the old cat off somewhere and lose it. So I put him in a basket and tramped out into the country about eight miles."

Ransom Murphy—"Well, did you lose the cat?"

Bob—"Lose it? If I hadn't followed it I'd never got back home."

DRINK WATER WITH MEALS  
GOOD FOR STOMACH

Water with meals helps stomach juices, aids digestion. If bloated with gas add a spoonful of Adlerika. One dose cleans out poisons and washes BOTH upper and lower bowels.—Mac & Gidley, Druggists.

### PROGRESSING

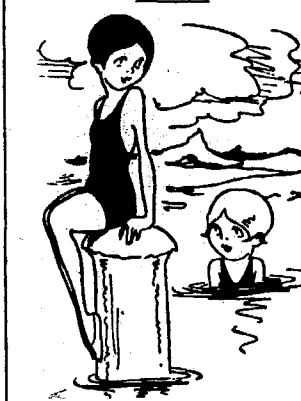

He—Aren't you beginning to care for me just a little?  
She—I really believe I am. I can almost listen to your proposal now without laughing.

### GETTING POINTERS

Farmer—The new summer boarder spends lots of time in the dairy. Seems to take a great deal of interest in the separator.  
Guest—Well, he's in that line himself. He's a divorce lawyer.

### HORRORS!

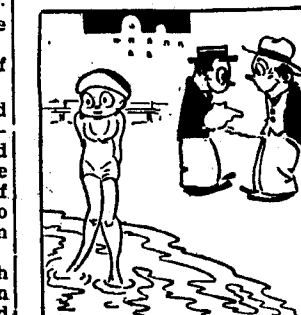

"Susan's bathing suit is creating quite a sensation."  
"I should say so. Positively the most modest suit seen on the beach for years."

### LOST CHANCE

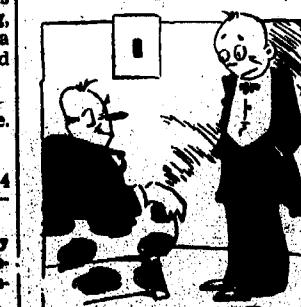

He—Won't you marry me? I have a million dollars and a fine house.  
She—If you were about twenty years older I'd take a chance.

### HALF THE BATTLE

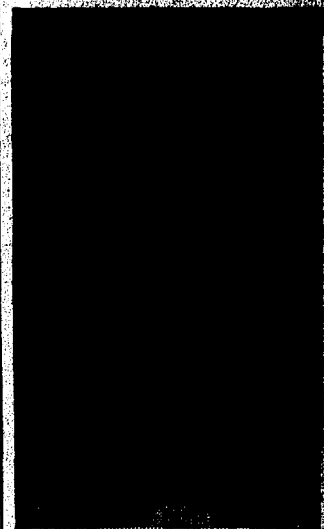

"What's the first thing to do in teaching a girl to swim?"  
"Find the right girl."

### POLITICAL NOTE

"The man who praises himself never popular."  
"No; especially with the people who think he might be praising them."

### Chinese Print

A Chinese floral print on a lacquered background is cleverly fashioned by Schiaparelli. The belt is royal blue belting ribbon. The Tunic straw hat trimmed with red and blue veiling is crownless.

### ANNABELLE'S ANSWERS

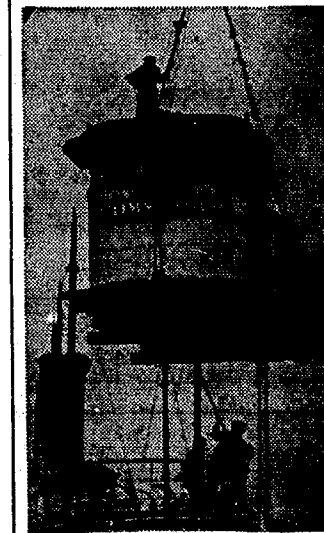

By RAY THOMPSON

DEAR ANNABELLE: CAN YOU TELL ME HOW A GIRL FEELS AFTER LOSING TWENTY POUNDS?

FAY T.  
Dear "Fay T.": WONDERFUL! IN FACT, SHE USUALLY FEELS LIKE A NEW MAN!

### Wheelhouse Home

Capt. Robert L. Edwards of Seattle, Wash., always did like that wheelhouse of the ferryboat Commander and when the old boat was sold to a wrecking company to be broken up, he bought the wheelhouse for a home. It was deftly sliced off the ferry and moved by barge to Magnolia Bluff where Captain Edwards has placed it overlooking Puget sound.

### GIRLIGAGS

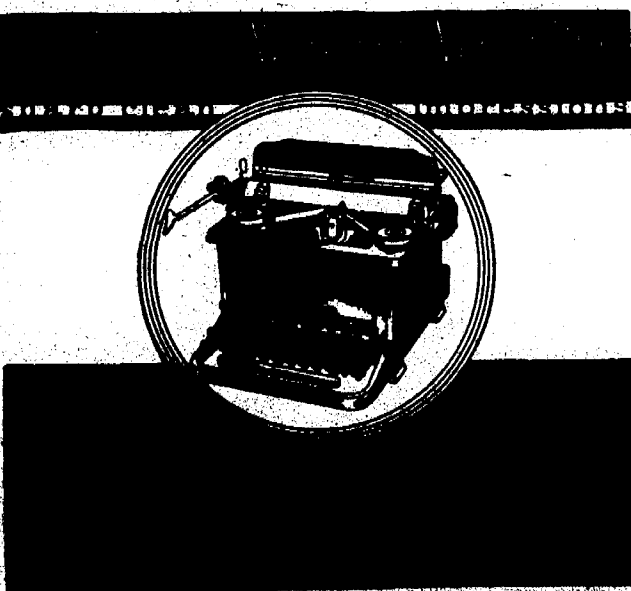

"After all it makes but little difference how the world goes," says pessimistic Polly. "In bad times we have our backs to the wall and in good times our noses to the grindstone."

### Important Goldfish

Undoubtedly the most important job held today by a school of goldfish is helping in the operation of the broadcasting station in Drottning, England. These 150 fish eat the algae that grow in the water-cooling system of the transmitter tubes and thereby prevent these aquatic plants from clogging the pipes.

Hope for recovery has been given many infantile paralysis victims who come from all over the middle west for treatment in the new physiotherapy swimming pool installed at the University of Michigan hospital at Ann Arbor through a joint effort of the Horace Rackham Foundation and the Works Progress Administration. Several youngsters, stricken by the dread disease, are shown above exercising their limbs in the treated pool water under the custody of an attendant. Inset shows a tot receiving a light therapy treatment prescribed by an orthopedic surgeon.

## Race Driver Joins Mileage Test

Allowed only 37½ gallons of gasoline for the annual 500-mile race at the Indianapolis Speedway on Decoration Day, "Babe" Stapp (right), midwest AAA champion, decided he wanted to learn the truth about gasoline mileage and was one of several of the Speedway drivers to enter the "world's greatest road test" which Standard Oil Company is now conducting. Dick Schellischmidt of Indianapolis is shown receiving the famous driver's entry and explaining the record book in which automobilists record gasoline purchases and mileage obtained.

## Irvin S. Cobb thinks about:

HOLLYWOOD, CALIF.—They say this will be the liveliest fight for years and years, with glee clubs gargling and the boys out with brass bands—and brass-knucks; and batteries of college professors firing on opposition professors.

But they'll never reclaim the glorious ancient spirit. We're too tame. Take '98. Now, there was a campaign for you. When Bryan was a discovery instead of a chronic recurrence.

Two life-long friends would meet. "What d'ye think of this here free silver thing?" one would ask. "I think it's the greatest notion in history," the second fellow would say. "What do you think?" "I think you're a dirty such-and-such!" The first man would yell, and then everybody would start bouncing those old-fashioned cuspidors off of everybody else's dome.

J. Edgar Boulder. O WING to recent developments over which it had no control, I believe the Interior department temporarily has shelved the idea of changing J. Edgar Hoover's name to J. Edgar Boulder, as was previously predicted in these dispatches. But now certain critics at Washington insist on accusing that gentleman of over-advertising in connection with his latest activities. Well, he has the advantage over some press agents. When he promises a show he certainly puts it on upon the day and date announced, with the band playing "The Alcatraz Drag"—and every cage full.

Funny Foreign Names. WORD from Warsaw is that the incumbent, the Hon. Marjan Zyndram Kosciakowski, having resigned, the president of Poland has picked as the new premier none other than Gen. Felicjan Slawoskiadkowski. The latter gentleman has already been installed up to and including his first five or six syllables, the rest of the name running as a second section. So what you mistook for static on the radio night before last was just the news broadcaster trying to pronounce him as a whole.

Ever Rising Taxes. ANYBODY who fondly believes that, regardless of which outfit wins in November, taxes won't keep right on going up and up has a thinking apparatus that dates back quite a spell. I'd say it dates back to the climax of the big rise, as set forth in the Bible, and is a direct inheritance from the skeptical folks who wouldn't harken to the prophetic warning. Remember the scene, don't you? The forty days' rain still beating relentlessly down, the freshest climbing higher and higher, the animals marching in two by two.

And with the old ark starting to move and Father Noah yelling: "All aboard," and with the waters closing over their heads, those know-it-alls still gurgling through their vaudeictory bubbles, "Shuck-in's, there ain't goin' to be no flood."

Honoring Lee and Jackson. WHEN the Post Office department includes among the gallery of the greatest Americans, to be pictured in the new issue of memorial stamps, the faces of the Confederate chieftains, Lee and Jackson, what happens?

Why, nobody waves the bloody shirt. Nobody ennobles the sorry word "traitor" by applying it to the memories of those two gallant soldiers and simple Christian gentlemen. Nobody beats the mauling bones of sectional rancor out of the ground. Nobody beats the "Rogue's March for Rebels" on hate's snare drum.

Instead, all over the Union, men and women applaud this generous but merited gesture. A leading paper of Boston—Boston, no less, once the mulching bed of abolition and the breeding ground for anti-southern sentiment—editorially commends the idea.

Railcar Popular in France

The railcar, or "automotrice," as it is known there, is becoming one of the most popular means of rapid passenger transport in France. At the same time great efforts are being made to increase the speed of these railcars. Every few weeks a new record is established. Record was attained by M. Jean Bugatti, who drove a Bugatti railcar from Strasbourg, to Paris in 8 hours 31 minutes, averaging 80.4 miles an hour. Seventy-five Bugatti railcars are now running on the French railway system. M. Jean Bugatti considers that railcars are useful for rapid transit transport.—London Sunday Observer.

## BALANCING AN EGG

THIS is an excellent dinner table trick. The magician accomplishes the seemingly difficult task of balancing an egg upon end. When guests try the trick they find that they lack the ability to do it.

The trick is not so difficult as it appears; and there is a reason. It must be performed on a white tablecloth, where the magician secretly has placed a pinch of salt to form a little heap.

These grains do not show. It is upon them that the magician sets the egg. The salt forms sufficient base to support the egg upright. In concluding the trick the magician brushes away the salt while people are inspecting the egg.

## Invents New Gun

J. Robert Burns, twenty-seven, former aviation mechanic and motorcycle daredevil, is the inventor of a new rapid-fire, anti-aircraft gun which, if his claims are true, might decide the victor in the next great war. Burns says the gun can destroy aircraft within a range of five miles and within 1,000 feet of where its shell explodes. Named the "Burns bomber," the gun weighs 1,000 pounds and is designed for use on auto trucks, trains or the ground. It is a machine gun capable of firing 80 to 100 two and one-half inch shells per minute.

We have always considered Mrs. Herb Gothro: a sweet dispositioned woman but when she stands with a rolling-pin in her hand and tells you you are singing wrong, we're not so sure of her disposition. See her in Harmony Hall.

The Rev. Luther B. Butt, minister of Christ Church, (M. E.), Detroit, and his family were week end guests of Rev. and Mrs. Flory. Rev. Butt gave the sermon at the special service last Sunday. The I.O.O.F. members were guests at this service.

An auto driver struck into a drove of cattle near Frederic Sunday. A bull belonging to Roy Murphy had a leg broken and had to be killed and a cow belonging to Sid Barber was severely hurt on one shoulder. The auto was considerably banged up but was not put out of use. Occupants of the car were not injured. The cattle were in the street and, we understand, the driver was unable to stop in time to prevent a crash.

Friends recently paid tribute to Rev. Peter Kjolhede at his home in Grant. The Reverend gentleman retired from active ministry five years ago, but has occasionally conducted services at the Danish-Lutheran church there. However at the age of 92 he brought his services to a close at a church service on that day. He was pastor of the local church for 23 years and was loved by his congregation here. The gathering at his home was a surprise and was attended by some 40 friends.

## POPULAR YOUNG COUPLE MARRIED

Saturday morning was chosen for the wedding of Miss Matilda Engel, daughter of Mrs. August Engel, and Mr. Norman Dawson, son of Mr. and Mrs. Earl Dawson. The ceremony was solemnized at 8:00 o'clock, at the Danish parsonage, Rev. Hans Juhl officiating.

The bride was very lovely in a gown of yellow silk print with which she wore a white coat, and white accessories. Her corsage was of white snapdragons and pale blue sweet peas. Her sister and only attendant, Miss Virginia Engel, of Detroit, chose for the occasion a white tailored suit of summer flannel and her accessories were also white. Her corsage was almost identical to that of the bride.

The groom was attended by his brother, Devere Dawson, and Mrs. Emily Miller, of Detroit; sister of the bride, completed the wedding party.

Following the ceremony the young couple left on a few days' honeymoon to Manistee, Ludington, and Muskegon. They are now at home to their friends at their upstairs apartment at the Hepluf Sorenson residence.

Mrs. Dawson is a graduate of Grayling High School in the class of 1934, and shared with her sister, Miss Virginia Engel, the honor of class valedictorian. The groom completed his High School course in the year 1933 and was an outstanding member because of his basketball ability.

The young couple have the hearty congratulations of a host of friends.

Miss Peeke—"Stephan, please give me a sentence with the word 'fortification' in it."

Stephan Jorgenson—"Every summer we go away two weeks fortification."

252 miles to the gallon is how I figure it with Red Crown

... crows. Lester Longbow.

Mr. Lester Longbow, a prominent resident of Dozen Forks, R. R. 6, is known throughout the state for his untiring efforts in behalf of the Tall Stories Club.

YA see, I was to be speaker o' the evening at the annual Grange dinner over to Dozen Forks. I got all tided up, sorta late, and then found the dratted car was out o' gas—and Dozen Forks all o' four miles away.

"Well, my wife had an idea. Wait'll I get that little bottle o' gas I got from the Standard Oil Station to kill the ants with," says she.

"I loved as how it was foolish, but we'd try it. So she brought out a little ounce bottle and we dumped the Standard Red Crown it held into the as tank. I started off, figuring mebbe d make a hundred rod.

"But I got past the next farm—and the ext—'n fore I knew it there I was in ont o' the Grange with the motor still uninn'. Figure it out for yourself... four miles worth o' distance on two ounces o' Red Crown. That's 252 miles to the gallon. That's mileage, mister!... Eh?... Sure, the hole Grange is using Red Crown now."

We think Standard Red Crown is good, too, but we refuse to be taken in by Lester's vivid report. It's not THAT good.

With "more live power per gallon," Standard Red Crown operates with less waste power per gallon. With you can be sure of as long mileage per gallon as with any regular-priced gasoline you can buy—if not longer.

But rather than make claims, Standard prefers to make it easy for motorists to find out the real facts about gasoline mileage for themselves.

## Camp News

## CAMP HIGGINS LAKE

Camp Higgins Lake is making great preparations for a company party to be held on the evening of Friday, June 13. The party will be held in the Recreation and Educational rooms. Plans are under way to create novel decorations for the evening.

The orchestra for the evening is the popular June Kimble orchestra which is well known in these parts. Dancing will begin at nine. Refreshments will be served in the Company Mess hall.

This party promises to be one of the most interesting social attractions of June. The friends of Camp Higgins Lake are invited to be present.

Higgins Lake has been playing a good brand of baseball this season. They have won two out of three games played. They have split even with Camp AuSable, dropping the first 3-2, and winning the second 14-1. On Decoration Day the team met the highly touted Luzerne aggregation and humbled them to the tune of 13-5. This early season form looks well for another sub-district pennant for Higgins Lake.

Camp improvements continue. The headquarters are nearly finished. The hospital is well on its way to completion. It seems to the boys that have been doing it that several acres of sod have been put down in the last few weeks. Possibly it is not that much but we can say that their work has made a vast improvement in the looks of the camp area.

Word has been received that Mr. Leslie M. Merritt, former Educational Adviser of this company, has left the service to take up work with a newspaper in Howell, Michigan.

Plans are under way to secure inter-camp competition in archery. About twenty-five boys are working on bows and arrows in this company. Reports are that the same is happening in the other areas surrounding Grayling. When the bows are completed, the different camps will send teams to compete in this sport.

## Maple Occupies Unique Place as Furniture Wood

There are two kinds of maple, hard and soft. The hard varieties are called rock maple, sugar maple and black maple. Hard maple grows throughout the area from Newfoundland to eastern North Dakota and south to the gulf, except in the peninsula of Florida. Its commercial range is confined to the lake states, the Northeast, and the Appalachian mountains to northern Georgia. About sixty per cent of the hard maple used in furniture manufacture, comes from Michigan and Wisconsin. It is considered much superior to soft maple, sometimes called red, silver, or swamp maple.

Maple, as a rule, writes an authority in the Chicago Tribune, does not have wavy figures in the grain, although there are some few instances of this. Three distinctive, special figures are found in hard maple and, to some extent in other varieties. These are birdseye, curly, and blister maple. They are accidental, occurring only in occasional trees, and the percentage obtained is small.

Some of the reasons why hard maple is one of the principal American furniture woods are its strength, its pleasing texture, and its ability to take a beautiful finish. It ranks with walnut and birch in its strength. Furniture of good weight quality lasts longer, is more rigid, and resists hard usage better than that of light weight.

Most maple furniture is made of solid wood, although figured veneers may be used for drawer fronts, exposed panels, etc., for decorative effect. Soft maple is used relatively little in the industry.
